(5) David claims that on 22 November he ran around the Embassy looking for photos of Os wld. When he found one, he put it on a plane to Dalla, where Bardwell D Odum (I add the name - David did not know it) took it to Mrs. Oswald, as told in Odum's deposition in the Report. (This is in contrast with the information we have on that photo - it was in Washington on 22 November, and had been there for quite some time. Also, if David put it on a plane at about 4:00 pm Mexic o time, I doubt that it could have gone through Dallas and been in Odum's hands by the early afternoon Texas time to show to Mrs. Oswald).

9.) A number of things caught David by surprise and he was taken aback by: He snapped that Melon is a liar. b. The Atsugi business surprised him - he did not comment. c. He reacted the same way to Oswald's association with George deMohrenschildt. d. He nodded only when I speculated that Richard Snyder was CIA.

Of course, this is all from memory, as I could not take notes as we spoke. But overall, he was disturbed by the topic, and reflected his attitude on Dan Rather's program that I was there, and I know.
